

Together, farmerswife and Cirkus solve your company's needs, end to end.

Cirkus, a new solution from farmerswife. The fresh way to help you and your team get work done. Forging a new path to stay connected. farmerswife's collaboration with Cirkus keeps everyone in the loop.

#### The evolution of collaboration

- farmerswife provides the 'heavy lifting' of in house schedule and resource management alongside financial reporting, while Cirkus acts as the collaboration platform to share detailed information with distributed teams both internally and externally.
- Attach files and chat in comments.
- Customise templates and automations to get work done.

#### Task Management for your farmerswife Projects

- farmerswife Projects and Bookings can be synced to Cirkus.
- Link budget items in farmerswife with tasks in Cirkus.
- Choose from different project templates with pre-defined lists of tasks and assign to roles or people.
- Set up different request types for deliverables and automate your workflows.

#### Advanced technologies

- Cirkus offers all the project time management and task management features that you'd expect like: due dates, reminders, assignees, comments, recurring tasks and file attachments, as well as

advanced features such as project templates, custom fields, new milestones and task triggers that support complex, repetitive workflows.

- farmerswife and Cirkus evolution gives you the full picture to control costs and invoice for the work completed.

*"Project managers are still keeping an eye on everything in farmerswife while the crew with different production elements are on a daily term using Cirkus, for seeing the schedules, tasks and also for time reporting back into the system!"*

- NO PARKING
