farmers**wife,** a complete scheduling, tracking, and resource management solution.

Schedule your people, rooms, equipment and more. Plan projects, view resource availability and stay on track with deliverables.
Media professionals around the world use farmers**wife** every day in post-production, production, broadcasting, equipment rental, agencies, and education.

Your facility schedule in real time

- See real time bookings, availability, conflicts and more in your fully customisable timeline.
- Visibility across your whole company on multiple platforms, whether you're in the office, at home or working on location.
- Book the resources you need with quick drag and drop scheduling or from Booking Templates.
- The configurable timeline views are the cornerstone of

our production, post-production, and recording studio management software.

Manage Short Form bookings in the Hourline

- In the Hourline you can book your resources by the hour, minute, or day, for easy micro-managing on a daily basis.
- Define the resources you want to see and group by location or team, to create an "easy on the eye" schedule everyone wants to see.
- Share in real time with your colleagues to view online or mobile device so that everyone is on the same page.

Gantt-style timelines

- The farmerswife Gantt-style project timeline keeps everyone updated with what is happening daily or long-

term by providing an easy overview of the defined project stages, milestones, and checkpoints. These types of timelines increase efficiency and productivity by providing a visual wide-angle view of the project.

Big Picture Planning in the Long Form

- Get a bird's eye view of your facility in the Long Form.
- Schedule and manage projects and resource utilisation over a specified period of time.
- Use Booking Templates to quickly add recurring projects to the time line with a swift drag&drop action.

"There is only one company for bookings...and it's farmerswife"

- EMMYLAND
